Set along the peaceful shoreline of Flamingo Lake within the private gated enclave of Kaya, Villa 2 — Kachi — offers a refined opportunity to secure a pre-construction luxury waterfront residence within one of Providenciales' newest thoughtfully designed residential communities. Positioned on a 0.46-acre lakefront parcel, Kachi is designed by HL Architecture to blend modern Caribbean design with privacy, durability, and seamless indoor-outdoor living. The residence is planned to encompass approximately 4,608 square feet total, including approximately 2,845 square feet of interior air-conditioned living space, carefully arranged around open entertaining areas, outdoor terraces, and lake views. The main villa is designed with four spacious bedroom suites, each featuring a private ensuite bathroom. The primary suite is designed as a private retreat, complete with a five-piece bath, outdoor shower, and lockable owner's storage for owners intending to utilize the villa for part-time occupancy or rental income. Outdoor living is central to the Kachi experience, featuring a private pool, covered outdoor dining and lounge areas, and dedicated sun and relaxation zones positioned to capture lake breezes and expansive views stretching toward the turquoise waters of the Caicos Banks. Kachi also offers flexible expansion opportunities. Owners may elect to add a one or two-bedroom guest house, allowing the property to expand to as many as six bedrooms total. This creates an attractive hybrid ownership model suited to private family use, guest accommodation, or high-end rental performance (configuration pricing available upon request). Optional enhancements may include recessed firepit lounge seating, outdoor kitchen installations, natural local stone feature walls, solar energy packages, and fully integrated furniture and AV design packages to support a turnkey completion experience. Construction will utilize reinforced concrete block construction with full hurricane-rated windows and doors, meeting or exceeding Turks & Caicos building standards. Parking is accommodated via single or double covered carports, and landscaping will preserve the natural indigenous vegetation surrounding the parcel. Residents enjoy direct access to Flamingo Lake, ideal for paddleboarding, kayaking, and bone fishing, along with exclusive gated, deeded access to Hidden Beach located just minutes away. Kachi represents a unique combination of lifestyle and long-term investment within a limited collection waterfront community where design integrity, environmental sensitivity, and construction quality are prioritized from the outset. Construction is currently underway on the Kaya model residence. Developer financing may be available to qualified purchasers, subject to availability. Early purchasers may benefit from pre-construction incentives and potential stamp duty savings.
